Dear Mr. Lockington:

Thank you for your letter of October 6, 1982 regarding the Limerick Generating Station. We believe that the type of information you seek pertaining to the interfaces of Limerick with the environment is contained in a four-volume set of documents entitled "Environmental Report Operating License Stage" or EROL. This set of documents was submitted to the NRC in March of 1981 by Philadelphia Electric Company as part of their application for a license to operate the Limerick station and is presently undergoing a comprehensive review by us. This review will culminate in the production of an Environmental Statement by the NRC staff, a draft of which is expected to be available about May of 1983. The EROL as well as other key documents and correspondence relevant to the NRC review of Limerick can be found in the Local Public Document Room (LPDR) located at the Pottstown Public Library where Ms. Kathy Berry of the library staff will be happy to assist you. The draft Environmental Statement will be placed in the LPDR when available.

I trust this letter is responsive to your request.

Sincerely,

Original signed by:
 Thomas M. Novak
