

APPENDIX A

OCT 20, 1982

NOTICE OF VIOLATION

Commonwealth of Pennsylvania  
Department of Agriculture  
Harrisburg, Pennsylvania 17120

Docket No. 30-06235  
License No. 37-10305-01

As a result of the inspection conducted on August 18, 1982, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C), the following violation was identified:

10 CFR 20.207(a) requires that licensed material stored in an unrestricted area be secured against unauthorized removal from the place of storage. 10 CFR 20.207(b) requires that materials not in storage be under constant surveillance and immediate control of the licensee. As defined in 10 CFR 20.3(a)(17) an unrestricted area is any area access to which is not controlled by the licensee for purposes of protection of individuals from exposure to radiation and radioactive materials.

Contrary to the above, on August 18, 1982, two gas chromatograph foils containing 150 millicurie of hydrogen-3 each were stored in an unlocked drawer in a laboratory that was not under constant surveillance nor under immediate control.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Commonwealth of Pennsylvania, Department of Agriculture is hereby required to submit to this office within thirty days of the date of this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) the corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending this response time.
