

October 29, 1982

Docket: 50-285

Omaha Public Power District
ATTN: W. C. Jones, Division Manager -
Production Operations
1623 Harney Street
Omaha, Nebraska 68102

Gentlemen:

We have completed our review of the Institute of Nuclear Power Operations (INPO) evaluation report of the Fort Calhoun Station emergency preparedness program which you provided to this office with your letter, dated August 30, 1982.

After reading the INPO letter of April 22, 1982, to Mr. William Miller, it appears to us that the INPO "report" is, in fact, a summary of the more significant findings identified during the 4-day INPO inspection. In order to more fully evaluate this required annual review of your emergency preparedness program, we request a copy of the full INPO report.

The April 22, 1982, INPO letter does not adequately evaluate the interfaces with state and local governments and licensee drills, exercises, capabilities, and procedures as required by 10 CFR 50.54(t). This evaluation should also be included in the full INPO report.

Sincerely,

Original signed by:
Richard L. Bangart
