

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION V

1450 MARIA LANE, SUITE 210
WALNUT CREEK, CALIFORNIA 945 4

DEC 20 1990

Docket Nos. 50-361, 50-362
EA No. 90-201

Southern California Edison Company
Irvine Operations Center
23 Parker Street
Irvine, California 92718

Attention: Mr. Harold B. Ray, Senior Vice President, Nuclear

Gentlemen:

This refers to the enforcement conference held with Southern California Edison Company by NRC Region V and NRR at the Region V office on December 11, 1990. Subjects discussed during the meeting are described in the enclosed Meeting Report. A copy of the conference agenda is also attached.

The purpose of this enforcement conference was to discuss the circumstances and apparent violations associated with (1) inoperability of the steam driven auxiliary feedwater pump (SDAFWP) in Unit 2 and (2) a mispositioned containment sump outlet valve in Unit 3 which resulted in inoperability of one train of emergency core cooling systems (ECCS) and containment spray, and also caused degradation of containment integrity. Also discussed was SCE's apparent failure to identify these problems in a timely manner.

Both events reflect problems with nuclear power plant basic operating concepts. With regard to the steam driven auxiliary feedwater pump event, management allowed the pump to be returned to service on two separate occasions although the cause of the overspeeding of the pump had not been clearly determined. The event involving the containment sump outlet valve and the failure to follow up on an isolated steam trap illustrate that management has not ensured that the plant operators are primarily focused on the task of operating the plant and of maintaining themselves fully aware of plant status.

Enforcement action related to the two events discussed in this report will be the subject of separate correspondence.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosed report will be placed in the NRC Public Document Room.

Should you have any questions concerning this report, we will be pleased to discuss them with you.

Sincerely,

J. B. Martin
Regional Administrator
