This refers to the announced, routine safety inspection of emergency preparedness activities authorized by License Nos. NPF-39 and NPF-85 conducted by Mr. C. Amato of this office and other members of an NRC team on November 19-21, 1990, at your Limerick Generating Station, Pottstown, Pennsylvania and your Nuclear Group Headquarters, Chesterbrook, Pennsylvania. Discussions of our findings were held by Mr. Amato with you and your staff at the conclusion of the inspection.

The areas examined during this inspection are described in the NRC Region I inspection report which is enclosed with this letter. Within these areas, the inspection consisted of examination of procedures and records, interviews with personnel by the inspectors and observation of your annual emergency preparedness exercise.
