CYCLE 5 EXTENSION

Our September 22, 1982, letter on this subject referenced BAW-10087P "Taco-Fuel Pin Performance Analysis". Your Mr. Sydney Miner called recently to ask SMUD to confirm that the approved version of TACO described in BAW-10087 PA was used for the analysis supporting the cycle 5 extension. This letter documents the District's confirmation which was provided in a telephone conversation between our Tom Cogburn and Mr. Miner on October 19, 1982.
