Docket No. 40-WM039  
040WM039500E

MEMORANDUM FOR: Docket File No. 40-WM039  
FROM: Paul W. Michaud, Project Manager  
SUBJECT: VICINITY PROPERTY COMPLETION REPORT FOR CA-5015

DOE requested NRC concurrence on the Vicinity Property Completion Report for Vicinity Property No. CA-5015 in a letter dated October 11, 1990.

This property is a paved roadway in front of 27 Latimer Avenue in North Strabane, PA. Remedial action was performed on the adjacent property, but no contaminated materials were removed from this property. Approximately 4.2 cubic yards of contaminated material remain under some clean fill and the paved surface. The proposal to perform no remedial action on this property and apply supplemental standards due to the high cost of remediation relative to the long-term benefits was approved by the NRC in a letter dated May 6, 1987.

The completion report indicates surveys of the property were performed and the levels of contamination remain as previously described in the Radiological and Engineering Assessment. The staff, therefore, recommends providing NRC concurrence with the Completion Report for Vicinity Property No. CA-5015.
