NOTICE OF INTENT TO INTRODUCE  
NATIONAL SECURITY INFORMATION

In accordance with 10 CFR Section 2.907(c),  
Intervenors, Natural Resources Defense Council, Inc. and the  
Sierra Club, hereby provide notification of their intent to  
introduce National Security Information into the proceeding,  
as follows:

(1) The information relates to design basis threat  
levels of various federal agencies for various categories of  
threat. It is set forth in Answer A.9 of the Testimony of  
Dr. Thomas B. Cochran, Part V, Contentions 4 and 6(b)(4),  
filed November 1, 1982.

(2) The highest level of classification of the  
material is confidential.

(3) Intervenors anticipate the need to introduce this  
information during the safeguards portions of the LWA-1  
hearing scheduled to commence November 16, 1982.

(4) The information is relevant and material to Intervenor's safeguards contentions (4 and 6(b)(4)). It is necessary to demonstrate the extent to which Applicants and Staff fail adequately to analyze safeguards risks and consequences. More particularly, it relates to Intervenor's showing that diversion of plutonium from the CRBR and its supporting fuel cycle is possible under certain scenarios which Applicants and Staff do not adequately take into account.

(5) Intervenor may wish to submit additional National Security Information. The entirety of Dr. Cochran's testimony on the safeguard contentions has been submitted to the Office of Security for classification review. If that Office should determine that other portions of the testimony contain material subject to classification, we will advise the Board accordingly.

Respectfully submitted,

---

Eldon V.C. Greenberg  
GALLOWAY & GREENBERG  
1725 Eye Street, N.W.  
Suite 601  
Washington, D.C. 20006
