Dear ASLB Members

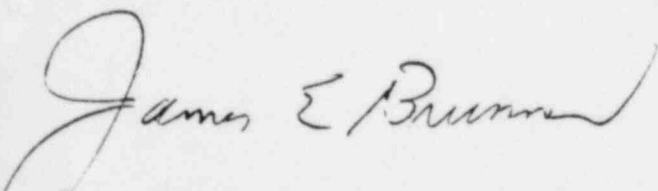

Effective October 25, 1982, Roy A Wells, Executive Manager, was appointed head of the Midland Project Quality Assurance Department (MPQAD). Mr Wells will be located at the Midland Site. Mr B W Marguglio will no longer be a member of the Midland Project Office, but will continue in his capacity as Director, Environmental Services and Quality Assurance.

In addition to the above, Don Horn has been appointed Section Head, Quality Services, under the Site QA Soils Organization. Don's responsibilities in his new role will be coordinating quality assurance engineering out of Ann Arbor, training, audits and document control for soils work and providing administrative support. Don is also the Assistant Site Soils QA Superintendent, in which capacity he will act as Superintendent in the absence of J K Meisenheimer.

Richard Oliver has been appointed Section Head, Quality Assurance Engineering, relating to soils. Oliver's responsibilities include providing technical review and QA approval of design documents and construction procedures, quality planning and QA approval of QC inspection plans, overinspection and support of audits.

In addition, Michael Blendy has been appointed Project Field Quality Control Engineer, responsible for first-line quality control activities relating to soils.

Very truly yours

James E Brunner
