Attention: Keith R. Williamson
Radiation Safety Officer

Gentlemen:

Subject: NRC Special Inspection of 10 CFR 150.20 General License

This refers to the special safety inspection conducted by Mr. D. Skov of this office pursuant to the telephone notification made to the Region V Office on October 1, 1982 of proposed activities authorized by the general license provision of 10 CFR 150.20 and to the discussion of our findings held by Mr. Skov with you on October 1, 1982.

The special safety inspection was an examination of the activities conducted under the general license provisions of 10 CFR 150.20 as they relate to radiation safety and for compliance with the Commission's rules and regulations and the conditions of your specific state license under which licensed material was used on board the ship USS WABASH at Hunters Point Naval Shipyard, San Francisco, California, a location under exclusive federal jurisdiction.

During this special safety inspection, it was found that one of your activities appeared to be in noncompliance with NRC requirements. This item and reference to the pertinent requirement is listed in Appendix A. This item has been categorized into a severity level as described in the NRC Enforcement Policy (10 CFR Part 2, Appendix C), 47 FR 9987 (March 9, 1982).

Your response to this Notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
