and Safeguards
Office of Nuclear Reactor Regulation
US Nuclear Regulatory Commission
Washington, D.C. 20555

Spectrum Technologies
USA Inc.

133 Wall Street
Schenectady, N.Y. 12305

Dear Mr. Grimes:

This will confirm receipt of your letter dated December 11, 1990, regarding the Nuclear Regulator Commission's (NRC) review of Spectrum Technologies USA, Incorporated's (Spectrum) sale of molded-case circuit breakers to the Peach Bottom Atomic Power Station. This letter will also confirm that I will be in attendance at an enforcement conference to be held in Washington on January 10, 1990, at NRC's Office of Nuclear Reactor Regulation.

Although your letter stated that no response to the letter was required prior to scheduled conference, I must state that I am most disturbed by the statements made in the NRC Inspection Reports and the related synopsis. Not only are unfounded statements made, the allegations that I lied to NRC inspectors is completely false. Such statements will have a most detrimental impact upon me, personally, as well as my Company.

We respectfully request that the NRC inspectors who have made the allegations be present at the conference. You can be assured that Spectrum will cooperate fully with the NRC to correct the record in this matter.

Best wishes for a Happy New Year.

Very truly yours,

Brij M. Bharteey
President
