Gentlemen:

SUBJECT: Withdrawal of Application for Amendment of Operating License

Omaha Public Power District (OPPD) submitted in Reference 2 an application for amendment of Facility Operating License No. DPR-40. This change requested an increase in the maximum allowable drift for the primary and secondary safety valve setpoints. Due to the generic industry concerns related to testing of safety valves on lines containing loop seals, OPPD respectfully requests that this application be withdrawn.

Should you have any questions, or need additional information, please do not hesitate to contact me or members of my staff.

Sincerely,
