Jerome Saltzman, Assistant Director
State and Licensee Relations
Office of State Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

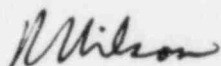

Docket No. 70-1257

Dear Mr. Saltzman,

Reference: Your letter dated October 20, 1982.

This is to inform you that our SNM License No. 1227 still authorizes Exxon Nuclear to possess 100 kgs of plutonium. It is our desire and intent to continue financial protection of \$160,000,000 and NRC indemnity protection for our Horn Rapids fuel fabrication facility. Therefore, do not proceed with termination of our agreement.

Sincerely,

R. Nilson, Manager
Corporate Licensing
