Docket No. 99900081/81-01

Dear Mr. Potapovs:

The following information is ENC's ammended response for Item C of the referenced docket.

ENC has revised the applicable Quality Control Standards (XN-NF-Q35018) to permit a more restrictive alternative CSR determination by ENC Quality Control for release of cladding on a shipment basis.

ENC has undertaken a task to provide appropriate clarifications in the design document germane to the vendor's CSR test data requirements. This action is scheduled for completion by March 15, 1983.

Should you have any additional questions on these matters, please call me at (509) 375-8257.

Yours very truly,

A handwritten signature in cursive script, appearing to read "C.J. Volmer".
