MEMORANDUM FOR: James M. Taylor, Director, Division of Reactor Programs,
IE

FROM: John T. Collins, Regional Administrator, Region IV

SUBJECT: EXXON REQUEST FOR PROPRIETARY INFORMATION EXEMPTION

In accordance with MC 1025-034, we are submitting for your review and disposition the attached request dated January 20, 1982, by a vendor, Exxon, to exempt proprietary information from report 99900081/81-01, also attached. Please review the request and render an opinion. You may deal directly with Exxon should you need any additional information. During the inspection, no claims were made that the identification of documents was proprietary. This claim does not appear to meet the criteria contained in Exemption 4 of IE Manual Chapter 1005A, section 205(a). The claim is based on the assumption that a reference to a document by title and/or identification number would force Exxon to disclose the entire document to the public, if requested. Please note that we do not have any of these documents on file.
