SUBJECT: DOE-SPONSORED WASTE INVENTORIES AND PROJECTIONS PROJECT

Ed Mastel of DOE has arranged for ORNL to give a presentation on their waste inventories and projections project to NRC staff on Thursday, October 21 at 9:00 a.m. at the Sheraton Motel in Rockville (just off Shady Grove Road from Route 270). The presentation will include the use of computer terminals to call up information. I believe that it is worthwhile to observe the capabilities of their system and to hear what their future plans may be. I recommend that a representative from each Branch attend, if possible.

Ed Mastel has suggested that NRC have a non-voting member on this project's Steering Committee. This presents an opportunity for NRC to influence a DOE project to provide information usable by both Agencies, and I recommend that we accept this offer. Since the waste inventories project covers HLW, LLW and UR, I further recommend that the representative be a member of the WMPI Branch.

Please contact me if you plan to have a staff member attend the October 21 presentation.

Philip Altomare, WMPI
