Attention: Ms. Betty Wright
Licensing Officer

Subject: NUCLEAR REACTOR PARTS - EXPORT TO GERMANY

Dear Ms. Wright:

The attached is General Electric Company's original NRC License Application for two Control Blades and two Fuel Bundle Channels to be exported to Noell GMBH c/o University Hannover, Hannover, Germany.

These reactor parts have been disabled to prevent their use in a nuclear reactor. They will be used as "waste material" for the testing of a crushing device in two Switzerland reactors KKM and KKL.

These tests are scheduled for the week of January 7, 1991 and therefore your urgent assistance is most certainly required.

F. D. Flowers, Manager
Licensing & Traffic
