Dear Mr. Lewis:

SUBJECT: NRC INSPECTION REPORT NO. 70-1113/90-207

The Nuclear Regulatory Commission (NRC) conducted a routine unannounced inspection of your facility's material control and accounting safeguards program on December 3-7, 1990. The scope and results of the inspection are summarized in the Inspection Report Summary (Enclosure 1). Areas examined during the inspection are described in the Inspection Report Details (Enclosure 2).

The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations of activities in progress. At the conclusion of the inspection, the findings were discussed with members of your staff.

Within the scope of this inspection, no violations or deviations were identified. However, three items were identified that require inspector follow-up as described in Enclosure 2.

Under the provisions of Section 2.790(d), reports containing information related to a licensee's material control and accounting program are exempt from public disclosure. Accordingly, the Inspection Report Details (Enclosure 2) will not be placed in the Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Theodore S. Sherr, Chief
Domestic Safeguards Branch
Division of Safeguard and
