

NUCLEAR MANAGEMENT AND RESOURCES COUNCIL

1775 Eye Street, N.W. • Suite 300 • Washington, DC 20006-2496  
(202) 872-4280

January 3, 1991

Mr. Brian K. Grimes  
Director  
Division of Reactor Inspection  
and Safeguards  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Grimes:

With this letter I am transmitting twenty copies of the workshop proceedings prepared by NUMARC for the Detroit Access Authorization/Fitness-for-Duty Workshop of September 12-14, 1990. The copies are for distribution at NRC headquarters and the regions.

We feel that the willingness of the NRC personnel and the industry representatives to interact openly is largely responsible for the success of the workshop. The workshop provided an open information exchange to further our mutual goal of a drug free workplace. This type of exchange is healthy and maintains the dynamic nature of both the regulatory agency and the nuclear utility industry.

We appreciate the fact that both your staff and NRC regional representatives were made available to participate in this very successful workshop. Although all the issues are not yet resolved from either of our points of view, this effort continues to be an effective way for the industry and regulator to carry on an open dialogue.

Sincerely,

Thomas E. Tipton  
Director  
Operations, Management and  
Support Services Division
