Docket No. 50-423

Dear Sir:

In accordance with reporting requirements of technical specifications Section 6.9.1.5, the Millstone Nuclear Power Station - Unit 3 Monthly Operating Report 91-01 covering operation for the month of December is hereby forwarded.

The Gross Thermal Energy Generated for the Year to Date and the Cumulative to Date deviate from the previous month's total and the present month's Month reading by 370,862.4 MWH. This is due to an adjustment to the burnup calculation and the gross thermal generation caused by ventur, fouling effects.

Very truly yours,

NORTHEAST NUCLEAR ENERGY
COMPANY

Stephen E. Scace
Director, Millstone Station
