United States Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

ATTN: Mr. D. G. Wiedeman, Chief
Materials Radiation Protection
Section I

In response to your "Notice of Violation".

Item #1

As of August 13, 1982, we began using the film badge service
of: Siemons Gammasonics, Inc.
Health Physics Services
Box 1367
Des Plaines, Illinois
with continued monthly badge exchanges.

Item #2

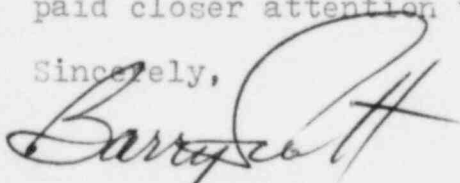

A leakage test was made August 13, 1982, and submitted to:
Gulf Nuclear Inc.
202 Medical Center Blvd.
Webster, Texas

The results were returned as follows: "Less than 0.005
microcuries contamination".

I trust this brings us into compliance with NRC Regulation.

I apologize for the negligence on our part, for not having
paid closer attention to NRC requirements.

Sincerely,

Barry Scott
