DOCKET NO: 70-3051
LICENSEE: Transnuclear, Inc.
Aiken, South Carolina
SUBJECT: CATEGORICAL EXCLUSION FOR REQUEST DATED NOVEMBER 19, 1990

By letter dated November 19, 1990, Transnuclear requested an exemption from the requirements of submitting decommissioning financial assurance. Transnuclear does not process licensed material; the company is only authorized to store heels contained in UF₆ cylinders. Because of the form of the material, the staff has determined that the licensee can be exempted from the requirement for submission of financial assurance for decommissioning. Additionally, the license is being amended to reflect a new corporate address. These changes are administrative and will not adversely affect the public health and safety or the environment. Accordingly, pursuant to 10 CFR 51.22(c)(10) and (11), neither an Environmental Impact Statement nor an Environmental Assessment is warranted for the proposed action.
