Office of International Programs
Mail Station WF1 3-H-5
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: XSNM-2527 Amendment Request

Please amend the subject export license as follows:

1. Change the expiration date from December 31, 1991 to December 31, 1992.
2. In the "Description of Materials or Facilities" delete "20" from the phrase "in the form of 20 irradiated fuel rods".

Note: This latter deletion would allow the export of more than 20 irradiated fuel rods as long as we do not exceed the quantity limits on uranium, plutonium, U-235 and enrichment.

Should there be any questions, please call me.

Very truly yours,

W. S. Hudec
