Gentlemen:

Technical Specification 6.6.2 of License TR-1 requires that a written report be submitted within 30 days of permanent changes in the organization for the GETR facility involving Level 1 or 2 personnel as defined in Technical Specification 6.1.

Effective January 1, 1991, G. W. Titus has been replaced as the Level 2 Facility Manager by F. A. Arlt. There is no change in the Level 1 position while the duties of the Level 3 Supervisor remain combined with the Level 2 Facility Manager.

Mr. Arlt is the Manager, Facilities Maintenance, for the Vallecitos Nuclear Center (VNC) site. Since he assumed responsibility for VNC maintenance approximately twelve years ago, his duties have included maintenance and surveillance of site reactor facilities.

If you have any questions concerning this staffing change, please contact G. E. Cunningham on (415) 862-4330. Thank you.

Sincerely,

R. W. Darmitzel, Manager  
Environmental Programs
