

OCT 20 1982

Alabama Power Company
 ATTN: Mr. R. P. McDonald
 Vice President-Nuclear Generation
 P. O. Box 2641
 Birmingham, AL 35291

Gentlemen:

Subject: Meeting Summary - Docket Nos. 50-348 and 50-364

This refers to the presentation conducted at the request of Alabama Power Company, in the Region II office on September 30, 1982, with you, your consultant from Westinghouse, and the Region II technical staff. This presentation was held to discuss fuel damage in Westinghouse plants resulting from Baffle Water-jet Impingement.

It is our opinion that this presentation was most beneficial in developing a mutual understanding of the problem as it applies to the Farley Facility and giving us confidence in your course of action to resolve the issue.

In accordance with Section 2.790 of NRC's "Rules of Practice", Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

/s/

James P. O'Reilly,
 Regional Administrator
