Gentlemen:

Subject: Routine Inspection No. 030-19705/90-001

On November 15, 1990, John R. White and Marlene J. Taylor of this office conducted a routine safety inspection at 1000 Lower South Street, Peekskill, New York of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with you at the conclusion of the inspection.

From the discussion of our findings at the conclusion of the inspection, we understand that you will be revising your record keeping procedure for results of non-fixed contamination surveys performed prior to transporting material to allow for better traceability to shipments. In your reply to this letter, please confirm our understanding and describe those actions taken or planned to improve this procedure.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed as Appendix A and categorizes each violation by severity level in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (Enforcement Policy). You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.
