

January 15, 1991

MEMORANDUM FOR: James McKnight
 Document Control Branch
 Division of Information Support Services

FROM: Scott Newberry, Branch Chief
 Instrumentation and Control Systems Branch
 Division of Systems Technology

SUBJECT: RELEASE OF REPORT TO THE PUBLIC DOCUMENTS ROOM

On September 20, 1990 James M. Taylor wrote to Mr. Beck of the BWR Owners Group to inform them of his decision on an appeal to the ATWS rule. At the time, Mr. Taylor referenced a EG&G Letter Report, "A Review of Diversity in Trip Units," dated February 1990. The report contained data proprietary to General Electric, and, therefore, could not be released to the Public Document Room as required. Mr. Taylor stated that the staff would obtain a non-proprietary version of that report and forward it as soon as possible to the Public Document Room. I am enclosing the non-proprietary version of that report. The report has been reviewed by Mr. R. M. Fairfield of General Electric, and the NRC staff have modified the report to conform with his requirements.

Should you have any additional question or comments, please contact Paul Loeser of the NRC staff at (301) 492-0825.
