Notice of Inspection and Violation

Dear Mr. Montgomery:

Pursuant to your FAX of 12/5/90, Alaska Quality Control & Technical Services, Ltd. provides the following response to the inspection conducted by Mr. Paul R. Zurakowski on August 17, 1990 at our facilities on behalf of NRC.

Item A:

The Troxler 3411 B Model gauge is not longer in use. This unit was leased. Alaska Quality Control is in the process of locating and obtaining a Campbell Pacific Nuclear Model MC Series Gauge. When this unit is procured, the Commission will be notified and this will bring the company into compliance.

Item B:

Alaska Quality Control & Technical Services, Ltd. has enrolled with Landauer Jr. & Co. Division of Tech/Ops to provide nuclear film badges and reading services on a regularly scheduled basis starting January, 1991.

Until that date and the discrepancies listed in Item A are corrected and the Commission notified, no nuclear device of any kind will be used by Alaska Quality Control & Technical Services, Ltd.

Kindest Regards,

Gayle Odsather
Vice President
