Dear Mr. Dietch:

SUBJECT: ENVIRONMENTAL REVIEW FOR LICENSE CONVERSION

San Onofre Nuclear Generating Station, Unit No. 1

In preparation for the conversion of the provisional operating license for the San Onofre Nuclear Generating Station, Unit No. 1 to a full term operating license, the NRC staff will shortly begin an assessment of the existing Final Environmental Statement (FES), dated October 1973, to determine what updating of the information contained in the FES will be necessary. Accordingly, you are requested to review the existing FES for significant changes to the San Onofre facility or the environs that would affect the conclusions reached in the FES. Your response is requested within 60 days of your receipt of this letter.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than ten respondents; therefore, OMB clearance is not required under P.L. 96-511.
