Mr. Jack Davis
Nuclear Materials Safety Section C
Division of Radiation Safety
and Safeguards
United States
Nuclear Regulatory Commission
Region 1
475 Allendale Road
King of Prussia, PA 19406

Dear Mr. Davis:

In response to your letter dated April 8, 1989 we submit the following additional information:

(1) On December 31, 1987 Process Technology of North Jersey was incorporated in the State of New Jersey. Notice of this was announced in January 1988.

At the Annual Meeting on M. 2nd 1988 the shareholders of the Company approved the change of the Company's name from Radiation Technology, Inc. to RTI Inc. This change was done to improve the Company's marketing image.

- a. There was no distribution of stock. The transfer of assets is reflected in the enclosed audited balance sheets.
- b. There were no changes in any "Finance Assurance" arrangements.
- c. Enclosed is a copy of RTI Inc. audited consolidated balance sheet as of December 31, 1988. An unaudited copy of the balance sheet as of December 31, 1988 for Process Technology of North Jersey is included.
- d. Organizational charts of RTI Inc. and Process Technology of North Jersey are enclosed.

(2) RTI Inc. is responsible for all licensed activities of the facility now named Process Technology of North Jersey and is committed to conformance with all NRC regulatory requirements.

May 1, 1989
Mr. Jack Davis
NRC

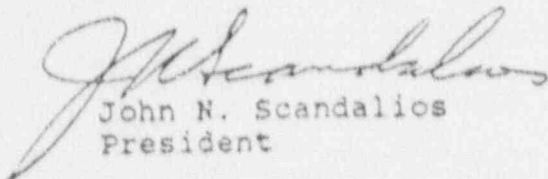

(3) The name change from Radiation Technology Inc. to RTI Inc. will not affect the liability of the corporation relative to financial responsibility for any required decontamination and decommissioning of the facility and property now known as Process Technology of North Jersey, due to previous and present licensed activities.

(4) Enclosed is a copy of the revised procedure 9.100 with your suggested change.

(5) "Preventive Maintenance System" Procedure number 12.100 has superseded Procedure 9.500. Enclosed is a modified Appendix A. Please note that Procedure number 9.301 "Calibration and use of the counter scaler" is now Procedure number 10.103. This change was made as this procedure is a Radiation Safety Procedure and not an Operations Safety Procedure.

Please contact me if there is any additional information needed relative to the requested license amendment.

Very truly yours,

John N. Scandalios
President
