United States Nuclear Regulatory Commission Region III 799 Roosevelt Road Glen Ellyn, Illinois 60137

Attention: Loren Hueter Re: File No. 90413

Dear Mr. Hueter:

Regarding my request to renew our Materials License No. 22-24587-01, dated October 23, 1990, I should have been more clear. We did not change location, but received a new mailing address, which is Beltrami County Highway Department, 2493 Adams Avenue N.W., Bemidji, MN 56601.

Also regarding our telephone conversation December 11, 1990 As I stated we only have the one gauge, Model 3241 used to measure asphalt content of materials but are licensed to use the 3400 and 4640 density gauge to measure moisture/density of materials. We would like the license to enable us to have two (2) of each one of these gauges, in case we would find a need for that amount in the future.

Ennoy Baccon

TROXLER ELECTRONIC LABORATORIES, INC HEREBY CERTIFIES THAT

ERNIE BAUER

BELTRAMI COUNTY, MINNESOTA, HIGHWAY DEPARTMENT

HAS SUCCESSFULLY COMPLETED THE TROXLER ELECTRONIC LABORATORIES, INC. TRAINING COURSE FOR THE USE OF NUCLEAR TESTING EQUIPMENT.

SUBJECTS INCLUDED IN THIS COURSE WERE AS FOLLOWS:

Radiological Safety

- protection.
- 2. Leak testing procedures.
- 3. Mathematics and calculations basic to 6. Accident and incident procedures. radioactivity.
- 4. Biological effects of radiation. 8. General safety precautions.
- 1. Principles and practices of radiation 5. Radioactivity measurement standardization and monitoring techniques and instruments.

 - the use and measurement of 7. Procedures for nuclear gauge storage and transportation.

Gauge Operation

- 1. Instrument theory
- 2. Operating procedures
- 3. Maintenance

- 4. Field application
- 5. Gauge calibration
