UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

October 29, 1982

Dr. Paul S. Shewmon, Chairman  
Advisory Committee on Reactor Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Shewmon:

Enclosed are three sets of the Safety Evaluation Reports referenced in Appendix A of NUREG-0823, The Integrated Plant Safety Assessment Report for the Dresden Nuclear Power Station, Unit 2. These references are presented for the use of the ACRS and its staff in the review of NUREG-0823. Complete sets of the Safety Evaluation Reports are also being placed in the NRC Public Document Room and Local Public Document Room for ease of reference by the general public.

Sincerely,

*Dennis M. Crutchfield*  
Dennis M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
Division of Licensing
