Senior Vice President
Opus West III
1400 Opus Place
Downers Grove, IL 60515

Gentlemen:

This confirms our plans as discussed between Steve Stimac of your staff and Ross Landsman of this office to have a meeting with you and members of your staff at the Illinois Beach Resort in Zion, Illinois, on January 31, 1991 at 2:00 p.m. (CST). The purpose of the meeting is to present the Initial S&LP 9 Report for Zion Station.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Commonwealth Edison Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Zion plant.

Sincerely,

H. J. Miller, Director
Division of Reactor Projects
