

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

January 8, 1980

MEMORANDUM FOR: Lee V. Gossick
Executive Director for Operations

THRU: P. Bird, Director *approval*
for Division of Organization and Personnel *Janzen Ruten*
2-1-80

FROM: J. T. Collins, Deputy Director
TMI Support

SUBJECT: EXEMPTION UNDER NRC BULLETIN 4136-44

Your memo of November 4, 1979, to all Office Directors reinstated the requirements in NRC Appendix 4136, Part III, B and D to grant compensatory time in lieu of approved irregular or occasional overtime pay for FLSA-exempt employees whose basic rate of pay exceeds GG 10/10.

This constitutes a request for exception under Bulletin 4136-44. Due to the nature of the on-site activities at TMI, it is necessary for the temporary on-site staff to work irregular and overtime hours. In view of the limited number of personnel temporarily assigned to the TMI Support Staff, we are not in a position to grant compensatory time in lieu of payment and still perform our assigned functions. I am, therefore, requesting that the individuals noted below be given an exemption to permit payment instead of time off for irregular or overtime hours for a period of six months (May 4, 1980) beginning with November 4, 1979, the effective date of your memo. I estimate the overtime hours will amount to approximately 16 hours per week per man for the foreseeable future or at the least until such time that we have staffed the TMI Site Organization with permanent positions.

Since most of the shift people are being supplied by IE Headquarters and the other Regional Offices, it is not possible to identify the specific individuals at this time. I would, therefore, propose these be handled on a case-by-case basis by IE Headquarters and the individual Regional Offices.

Your immediate attention to this matter would be appreciated.

MEMORANDUM FOR: NRC/TMI Technical Support Staff
FROM: J. T. Collins, Deputy Director
SUBJECT: NRC/TMI TECHNICAL SUPPORT STAFF POLICY BOOK

Effective immediately a notebook will be established in Trailer No. 1 Conference Room (by the SS4 Line) to contain all policy memoranda issued since August 1979 for NRC/TMI Office Business.

Any document subsequently issued that is appropriate for the Policy Book will be so marked on the "cc" and "bcc" listings with my approval.

The Policy Book will be required reading for all new personnel or temporary personnel. Presently assigned personnel will update themselves on the contents of this book.

The Chief, Site Operations Section will periodically review this book to assure that it is current.

All personnel are welcome to make recommendations in this regard.
