MEMORANDUM FOR: G. H. Smith, Chief, Fuel Facilities and Materials
Branch, Region I

FROM: J. R. White, Senior Radiation Specialist, TMI

SUBJECT: EMPLOYMENT OF RELATION BY METROPOLITAN EDISON AT
THREE MILE ISLAND

This is to inform you that Nuclear Support Service Company, the major contractor to MetEd for health physics services at Three Mile Island, employs my brother-in-law as a health physics technician. The individual is currently working in the Dosimetry Department, which is inspected by me in the course of my assignments at Three Mile Island.

I do not believe that this constitutes conflict of interest, but it may be a potential source for an allegation at some time.

J. R. White
Senior Radiation Specialist

cc: T. Collins
