Resubmission of Questions for Limerick DES-OL

Final
310.5

The response to this question as originally submitted contained all the requested information but the "distance and direction from the site." Please modify Table 2.1-17 so it includes the industries' distances and direction from the Limerick Generating System.

Final
310.10

The response to question 310.10 addresses only the transmission lines; there was no mention of "impacts to cultural resources in the vicinity of the plant property...", nor correspondence supplied addressing that topic as requested.

Please provide lists of properties presently listed or eligible for listing on the National Register of Historic Places within 15 km of the site or within 2 km of the transmission line routes. The ER-OL (2.6) contains no list and refers to the ER-CP listing which needs to be updated.

Please identify any impacts to cultural resources in the vicinity of the Limerick Plant which could potentially result from the operation and maintenance of the facility. Provide copies of any correspondence you have had with the State Historic Preservation Officer (SHPO) on this topic.

Please provide a report on the archeologic survey done on the transmission line corridors.

With regard to the Point Pleasant Pumping Station; have archeologic surveys been conducted on the pump station site; water line transmission corridors, Bradshaw Reservoir, etc.? If so, please provide copies of the reports. Please provide copies of correspondence with the SHPO on this topic.
