Ronald J. Dobey, Jr., CHP
Radiation Safety Officer
The Curators of the University of Missouri
c/o Gary Ward
Vice Chancellor of Operations
900 East Stadium Blvd., Suite 180
Columbia, MO 65211

Dear Mr. Dobey:

It has come to our attention that Amendment No. 123 to your NRC Material License No. 24-00513-32 issued on November 22, 2019, contained errors.

The language in Condition No. 33 was incorrect and included reference to a regulation no longer in effect.

The corrected Condition now replaces it.

The language in Condition No. 26 was missing a prohibition "for animal consumption," in addition to a prohibition "for human consumption." The corrected Condition now replaces it.

Condition No. 10.A. has been adjusted to make it more clear that the materials in Subitem Nos. 6.I., 6.P., 6.Q., and 6.R. are not included in the authorization for use at the addresses of use named within Condition No. 10.A.

We apologize for these errors and for any inconvenience they may have caused.

If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9807 so that we can provide appropriate corrections and answers.

You may also contact me at (630) 829-9841. My fax number is (630) 515-1078 and my email address is colleen.casey@nrc.gov.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

Pursuant to NRC's RIS 2005-31 and in accordance with 10 Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

R. Doby

The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture.

You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

Colleen Carol Casey
