Gentlemen:

Subject: Inspection Nos. 82-25 and 82-21

This refers to the special safety inspection conducted by an NRC team on September 27-29, 1982 at your Calvert Cliffs Nuclear Power Plant of activities authorized by NRC License Nos. DPR-53 and DPR-69 and to the discussions of our findings held by R. H. Smith with you and members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the team members.

As we discussed during the exit meeting, it is our understanding that you plan to conduct additional drills involving the handling of a serious injury and a contaminated individual; and will notify the NRC Resident Inspector of the schedule for the drills.

If our understanding of your planned actions described above is not in accordance with your actual plans, please contact H. W. Crocker of this office by telephone (215)337-5000.

Within the scope of this inspection, no violations were observed.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1). The telephone notification of your intent to request withholding, or any request for an extension of the 10 day period which you believe necessary, should be made to the Supervisor, Files, Mail and Records, USNRC Region I, at (215) 337-5223.
