VOGTLE ELECTRIC GENERATING PLANT
POSTULATED MILLETT FAULT STUDY

Dear Mr. Eisenhut:

As requested at the October 29, 1982 Postulated Millett Fault Study meeting with members of the NRC staff in Bethesda, Georgia Power Company is forwarding the seismic reflection lines from the Savannah River Plant. Please find enclosed the replay sections for the refraction lines in the vicinity of the Postulated Millett Fault, the time cross sections, the top triassic, saprolite, and crystalline rock countour maps, and the velocity gradient map. Also enclosed are five copies of a report issued as part of the reflection studies. All this information is available through the Oak Ridge, Tennessee Repository.

Should you have any questions, please inquire.

Sincerely,

Doug Dutton
Vice President
Generating Plant Projects
