Schedule and Reports

It is proposed that the project schedule be modified to allow its continuation through June 30, 1978 with technical effort to be concluded on April 30 and all deliverables to be submitted for review on or before May 31. Deliverables are to include monthly reports of progress plus the overall results of Consequence Estimation Project, Phase 3, in three parts.

- A report listing the calculated consequence estimates for the reference events specified in SAI report 1-013-71-770-05-RR. The consequences will be calculated in a manner consistent with the state-of-the-art of the relevant technologies.
- A report describing the assumptions, logic and methods used to calculate the consequence estimates.
- Documentation of all relevant computer programs acquired, modified or developed for use in the calculation of consequence estimates including specification of input and output parameters and constraints thereon.
