Associated Universities, Inc.  
Brookhaven National Laboratories  
Upton, New York 11973

Dear Dr. Cusack:

Subject: Consequence Estimation Study - NRC Staff Comments

Forwarded for your consideration are the NRC staff comments on the draft reports covering both Phase I and Phase II. It is requested that you give these comments sincere consideration in the preparation of your final reports. In the event that you take exception to any of the substantive comments, so advise me prior to final publication.

These reports are to be "the contractors reports". All staff comments must be agreed to prior to incorporation. After your review, please advise me if you think a meeting will be required to discuss questionable areas.

Please advise me of your estimated completion date of the final reports.

DISTRIBUTION:

SUBJ  
CIRC  
CHRON  
Berggren rdg  
Berggren cpy

Sincerely,

*Original Signed by  
J. S. Berggren*
