Docket No. 50-267

Public Service Company of Colorado
ATTN: Mr. O. R. Lee
Vice President, Production
Post Office Box 840
Denver, Colorado 80201

Gentlemen:

We have received a copy of your April 20, 1982 (P-82112) application which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes to include qualification and training requirements for the Technical Advisors at the Fort St. Vrain Nuclear Generating Station. Fees pursuant to 10 CFR 170.22 were not remitted with your application since it was requested by the USNRC and the changes are pro forma in nature.

Although your April 20 application was requested by the USNRC, and the ONRR review staff agree that it is administrative in nature, it is not exempt from fees under the provision of Footnote 2. When applications such as this one are requested by the USNRC for the purpose of enhancing the safe operation of a nuclear facility or to correct a problem or potential problem relating to operation of a facility, they are not exempt under Footnote 2 unless specifically ordered pursuant to 10 CFR 2.204. Therefore, it is requested that your Company remit the sum of \$1,200 to this office. If the ONRR staff's final review of your application reveals that the Class II fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
