Dear Mr. Mrocza:

This refers to your letters dated December 3, and December 7, 1990 (attached).

Thank you for informing us of the results of your review of the subject allegations as documented in your letter.

We are satisfied that discrepancies identified during the maintenance activities described in the letter were minor in nature and have been corrected. Further, we find no evidence of any programmatic deficiencies; therefore, we agree with your conclusion that none of these issues present any indication of a compromise of nuclear safety.

We consider these matters closed.

A copy of this letter with the attachments is being placed in the Public Document Room.

We appreciate your cooperation in these matters.

Sincerely;
