Dr. Paul S. Shewmon, Chairman
Advisory Committee on Reactor Safeguards
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Dr. Shewmon:

Enclosed are three sets of the Safety Evaluation Reports referenced in Appendix E of NUREG-0824, The Integrated Plant Safety Assessment Report for the Millstone Nuclear Power Station, Unit 1. These references are presented for the use of the ACRS and its staff in the review of NUREG-0824. Complete sets of the Safety Evaluation Reports are also being placed in the NRC Public Document Room and Local Public Document Room for ease of reference by the general public.

Sincerely,

original signed

Dennis M. Crutchfield, Chief
Operating Reactors Branch #5
Division of Licensing
