NOTE TO: Saul Levine, Director, Office of Nuclear Regulatory Research  
FROM: Richard Vollmer, Director, TMI Support Task Force

Harold gave me your note of August 7, 1979 with attached information from Tom Moss for comments. We have no specific comments. However, we should indicate to Tom Moss that we would react to the conference in a positive way. I noted that Harold is shown as being a participant in a panel discussion on Public Information and Communication. Harold indicated he would be happy to attend, if invited.
