Gentlemen:

Subject: Inspection 50-333/82-13

This refers to your letter dated September 17, 1982, in response to our letter dated August 18, 1982.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

With respect to Violation A.2, we have reviewed the additional information contained in your response letter and have determined that sufficient information was available to properly evaluate the concentrations of airborne radioactive material associated with Radiation Work Permit 8824(s). We are, therefore, withdrawing the violation. Our records will be modified to reflect this change.

Your cooperation with us is appreciated.

Sincerely,
