

Docket Nos. 50-325  
and 50-324

Mr. Lynn Eury  
Executive Vice President  
Power Supply  
Carolina Power & Light Company  
Post Office Box 1551  
Raleigh, North Carolina 27602

Dear Mr. Eury:

SUBJECT: BULLETIN 88-05 REGARDING PRODUCT FORMS OTHER THAN FITTINGS AND  
FLANGES FOR BRUNSWICK STEAM ELECTRIC PLANT, UNITS 1 AND 2  
(TAC NOS. 68744 AND 68745)

This letter supersedes the enclosed letter dated February 5, 1991, in which we requested further information related to NRC Bulletin 88-05 for Brunswick Steam Electric Plant, Units 1 and 2. As discussed with Mr. Ron Oates on February 13, 1991, no action on NRC Bulletin 88-05 is needed at this time. We are glad to learn from Mr. Oates that you have not yet begun preparing the information requested in the February 5, 1991, letter and it has not caused any unnecessary effort.

If you have any questions regarding this matter, please contact me at (301) 492-1458.

Sincerely,  
Original signed by  
Ronnie Lo for

Ngoc B. Le, Project Manager

ENCLOSURE

February 5, 1991

Docket Nos. 50-325  
and 50-324

Mr. Lynn Eury  
Executive Vice President  
Power Supply  
Carolina Power & Light Company  
Post Office Box 1551  
Raleigh, North Carolina 27602

Dear Mr. Eury:

SUBJECT: BULLETIN 88-05 REGARDING PRODUCT FORMS OTHER THAN FITTINGS AND  
FLANGES FOR BRUNSWICK STEAM ELECTRIC PLANT, UNITS 1 AND 2  
(TAC NOS. 68744 AND 68745)

The NRC staff issued NUREG-1402 (see Enclosure) to close out NRC Bulletin 88-05 and Supplements 1 and 2 regarding fittings and flanges supplied by Piping Systems, Inc. (PSI), West Jersey Manufacturing Company (WJM), and Chews Landing Metal Manufacturers, Inc. (CLM), which are installed in operating nuclear power plants. Supplement 2 of the subject bulletin contains an Attachment 2 that is a list of product forms supplied by PSI, WJM, and CLM that includes items other than fittings and flanges. As indicated on this list, the NRC review of the available records identified Brunswick Steam Electric Plant (Brunswick), Units 1 and 2, as one plant site that received unique or special orders for some of these materials.

The purpose of this letter is to request information regarding the disposition of this material. While Supplement 2 temporarily suspended the field measurements, testing, records review, and the preparation of justifications for continued operation (JCOs), the staff has since determined that it is appropriate to resume these activities at your facility for the product forms other than fittings and flanges. Accordingly, please provide the following information:

1. The quantity and type of all PSI, WJM, and CLM product forms other than fittings and flanges supplied to the Brunswick site including an itemization of those items installed in safety-related applications.
2. The plan and schedule for performing field measurements or other tests on those items installed in safety-related applications to verify the physical and chemical properties of the materials.
3. The plan and schedule for performing JCOs for those items installed in safety-related applications where material properties are found to be less than those in the appropriate material specification.
4. The plan for future use of PSI, WJM, or CLM material other than fittings and flanges which is in storage.

Mr. Lynn W. Eury

-2-

It is requested that this information be submitted within 90 days of receipt of this letter. If you have any questions regarding this matter, please contact me at (301) 492-1458.

The reporting and/or recording keeping requirements of this letter affect fewer than ten (10) respondents; therefore, OMB clearance is not required under P. L. 96-511.

Sincerely,
