RESPONSE TO REQUEST FOR ADDITIONAL INFORMATION  
PHYSICAL SECURITY PLAN

Gentlemen:

The enclosures to this letter provide formal clarification regarding two questions associated with the November 27, 1990 revision to the Physical Security Plan (PSP) for Plant Hatch. GPC was verbally notified of the request for additional information through a telephone conversation with Ms. C. D. Perry (Region II) on December 19, 1990, and subsequently by letter dated January 3, 1991.

As the subject portions of the PSP are relative to interim operation during the implementation phase of the Security Upgrade Project and will be deleted in the near future, a revision to the PSP was determined to be inappropriate. GPC's intent to provide clarification through official correspondence rather than a revision to the PSP was discussed with Region II personnel on January 4, 1991. The NRC concurred with the aforementioned approach and requested copies of appropriate sections of implementing procedures corresponding to the subject concerns. The procedure sections are provided as Enclosure 2. Please note that unrelated procedure sections are not provided in order to minimize the unnecessary reproduction, and distribution of SAFEGUARDS information.

The information contained in the enclosures is SAFEGUARDS information as defined by 10 CFR 73.21 and, in accordance with Section 147 of the Atomic Energy Act of 1954, as amended, should not be placed in the NRC Public Document Room.
