Glen Ellyn, IL 60137

Re: NRC License No. 24-20234-01

Dear Mr. Wiedeman:

Reference is made to your letter dated October 13, 1982 concerning apparent infractions and deficiencies associated with our by-product materials license.

Re: Item 1, Appendix, Notice of Violation: Prior to the day of the inspection the Nuclear Medical Technologist on duty accidentally washed and lost his TLD finger badge. The loss of the badge was not reported by the technologist and therefore a replacement badge was not ordered. The technologist has been instructed to report the loss or damage of any monitoring badge immediately so that replacement, if needed, will be prompt. Compliance will begin with the issuance of the next month's badges.

Re: Item 2, Appendix, Notice of Violation: During the second quarter of this year, we underwent personnel changes. Unfortunately, the new technologist did not realize these tests had not been performed. We were in compliance for the third quarter of this year and are currently in compliance.

Re: Item 3, Appendix, Notice of Violation: Each month copies of the radiation exposure records are sent to each technologist. On the day of the inspection, it was determined that several of these reports had been misplaced. New copies have been sent to replace those lost. Compliance with the requirement is current and it is anticipated that it will remain current.

Should you require additional information, please do not hesitate to contact me.

Sincerely,

Anton W. Kovack, Chief Executive Officer
Cass County Memorial Hospital
