Mr. Chas. Stearns
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

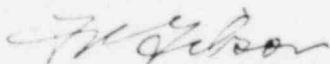

Dear Sir:

During your recent audit of the radiographic facilities in the Westinghouse plant in Lester, Pa., I did not have available the records of the most recent calibration of our dosimeters.

Evidently we had not received the reports or they were inadvertently misplaced. I requested copies of the reports from Universal Testing Labs, Inc. which I have enclosed.

I will be glad to provide any additional information you may require. Our Material License No. is 37-03632-01.

Yours truly,

F. N. Gibson
Manager
